

MONTANA RANCH
MATERNAL REVIVAL SALE
10.14.2026 | Bigfork, MT | 1:00 PM MT

Montana Ranch - 1463 Hwy 83, Bigfork, MT 59911
bulls@montanaranchangus.com • www.MontanaRanchAngus.com

Welcome to Montana Ranch country! On behalf of the entire Montana Ranch family, we invite you to join us in the beautiful Big Sky state for a week of great Angus cattle, fellowship and hospitality.

From the weather to the cattle markets, there's a lot we have no control over. But the one thing we all can count on is the value of good maternal-based Angus cattle. These are the same cattle which have weathered tough economic times and droughts while providing a living for ranching families across the country. And that is why we remain committed to building from the breed's most prepotent and proven cows to create the next generation with more functional efficiency, more fertility, more longevity and more predictability.

This is our deepest offering yet. We have dug deep with a selection of young donors including the dams of Jet 1271 and Method 4255. The spring-bred heifers are led by our oldest Grant daughters. They are deep, easy-fleshing and have a great brood-cow look. For those with fall breeding herds, the summer-calving cow-calf pairs and elite summer yearling heifers are ready to excel. The embryo matings present an opportunity to tie into the exact same ones we're using as our next generation. Take advantage; there is truly something for everyone!

Many know us for the Angus cattle we produce, but are not aware that Montana Ranch is also home to an internationally renowned cutting horse breeding program and produces some of the West's finest hay. Randy and Susan Holman expertly guide the horse operation, while the crew led by Matt Cottle and supported by Curt Wade, Andy Cottle and Colton Thorness are masters in forage production in addition to supporting both the cattle and horse enterprises. While you are here for the sale, please take time to get to know Jim McWilliam. After dispersing their successful Hereford program in Australia, Jim and his family have relocated to the U.S. and have been a valuable addition to the Montana Ranch Angus operation.

Plan to arrive early to get the full Montana Ranch experience, network with other Angus breeders and view the program up close. From the cool, crisp air and Angus cattle against the backdrop of one of America's most scenic locations, October at Montana Ranch is spectacular. While in our area, we also encourage you to explore the beauty and majesty of nature outside our backdoor at places like Glacier National Park, the National Bison Range and Flathead Lake. We look forward to your visit. Until then, the cattle will be available for viewing at the ranch and videos of the cattle may be viewed at MontanaRanchAngus.com.

Sincerely,

David and Seana Brown • (406) 210-5605

Jim and Belinda McWilliam • (406) 833-1143

Dave and Sandy Sabey

What does *Maternal* mean to us?

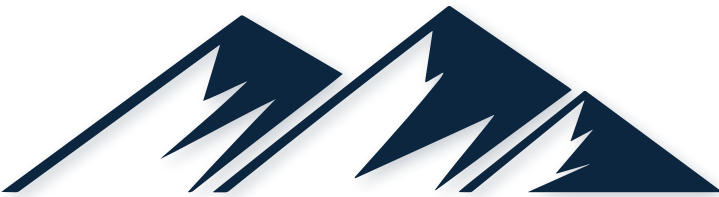

The word maternal has become a buzz word in the seedstock industry. Perhaps it's because many didn't appreciate maternal until it was gone. Ask a group of breeders to define maternal and you'll likely get a wide variety of answers that range from calving unassisted to possessing a breed association index quantifying maternal based on arbitrary, subjectively rated traits.

How do we define maternal?

In its simplest form maternal is defined by the cow breeding on time year after year, all while efficiently bringing in a high percentage of her bodyweight at weaning time with no assistance to birth, nurse or raise her calf.

But maternal is much more nuanced. Maternal is complicated, elegant and beautiful. Sometimes it's observed, yet most often, the most maternal cows are the ones that no one notices as she goes about her business of raising a calf. It is the innate instinct of a cow diligently working to get her newborn calf up and nursed. It is the cow placing herself between her calf and a howling wind in the depths of winter or shading her calf from the blistering sun in the summer. It is the cow which knows where her calf is at all times and is alert to potential dangers, yet has the intelligence to understand the role of her caretaker. In short, maternal is **ALL OF THE THINGS** we all tend to take for granted.

**It's not *one* thing
or *some* of the
things, IT'S ALL OF
THE THINGS.**

The **MATERNAL REVIVAL** *sale*

1463 MT Hwy 83 (Swan Hwy)
Bigfork, MT 59911

AIR TRAVEL

Glacier Park Int'l Airport • Kalispell, MT

30 minutes from Montana Ranch

Missoula Int'l Airport • Missoula, MT

2 hours from Montana Ranch

LODGING

Kalispell and Bigfork have numerous options for lodging

ANNOUNCEMENTS/UPDATES

Announcements from the sale block take precedence over any printed material. Updates to the sale book will be provided prior to the sale. Listed fetal sexes of pregnancies are not guaranteed.

SETTLEMENT / TERMS & CONDITIONS

Payment will be in U.S. Dollars and is to be completed before cattle/embryos are shipped. Absentee buyers will receive an invoice via email. The cattle sell under the suggested Terms & Conditions of the American Angus Association.

HERD HEALTH

All cattle are eligible for immediate shipment in the U.S. All cattle are current on recommended vaccinations/parasite control.

U.S. DELIVERY / PICKUP

Delivery to central points throughout the continental U.S. will cost a maximum of \$400 per live lot if brokered by Montana Ranch. The delivery fee will be added to the purchase invoice. We ask buyers to meet trucks at central points such as livestock markets to ensure safe and timely delivery. Free nationwide delivery in the continental U.S. for buyers of two or more live lots. For those buyers wishing to take their purchases on sale day, load out will take place after the conclusion of the sale.

CANADIAN DELIVERY

Shipment to Canada will be coordinated to one central point in Alberta once entry permits have been secured and health testing has been completed.

LIABILITY

All persons attending the sale do so at their own risk. Neither Montana Ranch nor its agents assume liability for any accidents which may occur.

EMBRYOS

Embryo lots consist of three IVF embryos with a guarantee of one pregnancy. Embryos will be released to the buyer at Trans Ova - Sioux Center, Iowa once payment has been received.

HOW TO BID ONLINE...IT'S EASY AS A, B, C!

Step A

Type salering.live into your browser. Salering.live can be used on your phone, tablet or desktop. We strongly recommend using Google Chrome as your browser for the best viewing and bidding experience.

Step B

Click the "Login/Registration" button. First time users, click "Registration." Enter your personal information. Check box for "I Agree to the Terms Above." Click "Next Step." A confirmation email will be sent to the email address used in registration. Salering.live reserves the right to refuse bidding credentials to any customer not meeting our specifications.

Step C

You are ready to go! You don't have to worry about a bidder number. As long as you are registered and logged in, you will be able to bid. Please remember you are on a highly sensitive web page. Please pay attention while scrolling or handling mobile/tablet devices.

Helpful Reminders!

PLEASE MAKE SURE YOU HAVE GOOD SERVICE! You should have, at bare minimum, two to three bars of service on your cellular devices. If you are using wifi, you need to have an upload speed of 5 mbps or more. Use www.speedtest.net to test your Internet.

Refresh your screen at sale time. Do not let your computer sit idle for over an hour and then return and try to bid. The website may have logged you out.

Salering.live does not handle money. All lots purchased will need to be paid to the farm directly or to sale management.

LIVESTOCK SOLUTIONS

It is with genuine excitement that I sit here and type this letter. I mean it. From a young age I knew that the livestock industry and this awesome breed of cattle is where my passion can be found. The success stories of the farming and ranching families, their resiliency and GRIT are the foundation for it all. Knowing that making genetic investments and strategic purchasing decisions ultimately has an impact on a family's bottom line is precisely what keeps me anchored to the fundamentals of this incredible industry. While evolving technologies and science should always be utilized and responsibly implemented in cattle operations, the bottom-line fundamentals and traits like fertility, longevity, maternal excellence and value-added protein production is not only what made this great breed of cattle what it is today, but also in many cases, the same attributes that keep the ranching family in business and surviving.

What does all of this have to do with this particular sale offering and program? It's simple, the Montana Ranch program is deeply rooted and steadfast in their same prioritization of these fundamentals and ranching families. I've witnessed the increase in demand for these tremendous genetics and the trust

that cattle breeders have bestowed on the people and program behind them. The breeding decisions here are intentional, the stacking of prepotent and productive cow families is intentional, their conviction in the time-tested fundamentals is intentional. This program is truly Different By Design.

At the end of the day, the story told within the sale catalog, the pedigrees represented on the registration papers, and the conversations held with friends and breeders all match the goals and vision. With historically high prices also comes some historically high inputs within cattle operations. As herd expansion begins to take place, optimization will take the place of maximization at the grassroots level of this business. Invest wisely, align yourself with genetic suppliers who prioritize the importance and value of the mother cow over short-lived trends and extremism.

It's an unbelievable offering of genetics and the beautiful backdrop of the ranch will provide an excellent gathering place for friends and cattle enthusiasts to assemble. I look forward to seeing you on sale day.

- Dave Mulling

Compass Livestock Solutions

BREEDING FOR THE *Right* REASONS

EACH AND EVERY MATING WE CREATE IS FOR THE COMMERCIAL COW-CALF PRODUCER.

The fact that our genetics directly affects the bottom-line of hard-working ranch families drives our breeding program. Creating cattle with traits that determine ranch-level profitability is the formula. Stacking generations of cattle which are fertile, predictable, problem-free and long-lived with sustainable levels of productivity is the answer.

Over the past three decades, the seedstock industry has continued to increase genetic potential for growth with little consideration for the consequences. During this same time period, readily available data has shown that weaning and yearling weights have remained static. Meanwhile, the commercial cow-calf producer has been left with the receipts of increases in mature weights and maintenance requirements, and declines in longevity and fertility.

OPTIMUM RATHER THAN MAXIMUM

Even though we primarily focus on maternal productivity/efficiency, we are certainly not anti-data, anti-performance nor anti-EPD. In fact, we are a performance breeder and regularly utilize EPDs and in-herd ratios as guardrails to keep traits in the optimum range rather than selecting for maximums which are always limited by environment and genetic antagonisms.

The POWER of 7

Why the emphasis on the cows populating the pedigree?

Prepotency: Picture a three-generation pedigree occupied by seven cows and seven sires. Now imagine those seven cows all standing in the same pen. Are they consistent in their type, function, productivity and prepotency (effectiveness at transmitting genetic strengths, regardless of the mating)? If so, the odds of achieving your breeding objectives dramatically improve. With intentionality, we place dams which are prepotent in each of the seven slots of the pedigree.

Why are some cows prepotent?

Mitochondrial DNA: The sires are important, yet the cows have much more impact on genetic expression. Offspring receive equal shares of Nuclear DNA (collection of genes) from its parents, but Mitochondrial DNA (site of the cell's energy production and other metabolic functions) is only inherited from the mother. Mitochondrial DNA affects which and how genes are expressed. The best analogy is: Nuclear DNA is the light, while Mitochondrial DNA is the dimmer switch that turns the light on or off.

Maternal Inheritance

It's all about the cow. Dams which are prepotent and which presumably transmit their mitochondrial DNA with higher frequency tend to produce with greater predictability.

B&B BLKBD PROGRESS 3015

The now-deceased member of the Montana Ranch, Koupal's B&B Angus and Mystic Hill Farm joint embryo program, Blackbird Progress 3015 placed more sons in registered breeding programs than any cow before her and stood among the breed's elite cows for consistent and predictable production before passing in October 2025.

The powerful 3015 was a 5th generation Pathfinder® Dam recording a progeny record of WW 8-107, YW 7-107, IMF 61-99 and RE 61-101. In a world where many donor cows earn their way into an embryo transfer program based on marketing churn, 3015 did it the old-fashioned way and in the process built a record that few can rival.

Without fanfare or hype, Joy 9330 has earned her place among the elite donors in the program. A long-bodied, smooth-made maternal sister to the popular Pathfinder® Sire, Rainmaker 4404, she carries a progeny record of BW 4-95; WW 4-105 and YW 3-103. Her first calf resulted in the proven low birth weight and udder-improving sire, Jet 1271, who was a \$39,000 feature of the 2023 sale, while another son, Ledger 3280, was a \$21,000 selection of Fortune Triangle S Ranch from the '24 bull sale.

Produced 46 viable embryos from 5 aspirations for an average of 9 embryos.

Sells with a 6/11/26 bull calf (Tattoo 6230 - AAA 21638490 - Lot 3A) sired by Montana Kingdom 2294.

Produced by the impactful Rita 9093 who earns a progeny record of BW 5-99; WW 5-108; YW 4-104; IMF 14-107 and RE 14-101, Kingdom was the popular \$40,000 top-seller of the 2023 bull sale.

The first calf crops from Kingdom have drawn widespread praise for the combination of moderate BW, accelerated early growth, abundant muscle expression and stunning good looks. Montana Mission 4293, a son of Kingdom, was a popular \$22,000 highlight of the 2025 Montana sale and now works alongside his sire and grandsire as a featured sire in the program, while another son, Mohnen Kingdom 1285 was a \$26,000 bull in the 2026 Mohnen Angus bull sale.

Owned with Mohnen Angus and Elmore Angus

MONTANA NORTHERN LIGHTS 5278 • This son of Kingdom is a feature of the upcoming Montana bull sale

MONTANA DONNA 5268 • This daughter of Kingdom sells as Lot 14B in this event

MONTANA MISSION 4293 • This third-generation sire in the Montana program is a son of Kingdom 2294

As the nation rebuilds the cowherd from historic low inventory, the industry will shift its emphasis to cattle which have the right kind of growth curve – accelerated early growth with moderated mature size, cattle that have real muscle and fleshing ability, and cattle that are sound from the ground up and cattle that excel for maternal productivity and efficiency. Grant 200K will be among the sires used to produce those kinds of cattle.

Grant's first progeny have been sought after in the marketplace with sons topping the sale at the record-breaking Lindskov LT Ranch and other sons topping sales for both Spring Cove Ranch and Parry Angus.

Grant's dam posted a progeny record of WW 3-110; YW 3-106 and IMF 4-115 before her untimely death, while his grandam earned WW 3-106 and YW 4-103, and his third dam, the famous Pathfinder® Carol 418, shows WW 6-106 and YW 3-104.

Used and proven by widely diverse programs all over the globe, Grant is a rarity in today's age in that his EPD profile has held steady as more progeny are submitted. His 184 calves born to first calf heifers have all arrived unassisted, while his progeny are showing BR 551-100, WR 300-101 and YR 149-102.

Owned with Lindskov LT Ranch

Right-sized and prepotent in her production, Lucy 0032’s progeny earn her a ranking as one of the most valuable donors ever offered through a Montana Ranch sale. Originally selected as a pick of the Heiken replacement heifers through the 2020 NILE Sale, Lucy 0032 hit the ground running with her first daughter, Lucy 2004, commanding \$40,000 to Ayres, DC Cattle and RC Cattle in the 2023 Montana sale. That effort was followed by a flush to Barricade which produced Lucy 3006, the \$60,000 top-selling bred heifer of the 2024 female sale selected by Circle F Farms; Loadmaster 3007, the \$55,000 top-selling bull of the '24 bull sale to Circle F; and LR Baritone, a featured young sire in the ABS lineup. Her daughter, Lucy 4296, was a feature of the 2025 sale going to Rich Werner’s Driftless Region Angus program.

Produced 60 viable embryos from 13 aspirations for an average of 4.6 embryos.

Due to calve 11/13/26 to Square B Atlantis 8060.

Reproductive and maternal efficiency coupled with optimal performance in a low-input, problem-free package is what drives profitability in this business. We think Lucy 5301 is the ideal template for what the future looks like. Right-sized with a robust shape and striking femininity, she excels for convenience, management and maternal traits while striking a balance of repeatable growth, carcass and low birth weight.

SAV BLACKCAP MAY 8552 • The powerful dam of Lots 12A-C

MONTANA REVIVAL 4076 • The \$30,000 maternal brother to Lots 12A-C

While Grant's sons are impressive, the strength of his daughters is on full display with the set of full sisters selling as Lots 12A-C. Their dam, produced from a flush sister to the Pathfinder® Sire, Resource, has more than \$250,000 in progeny sales and was the \$32,000 half-interest selection of Rust Mountain View Ranch from the 2022 Montana sale. Maternal siblings to these Grant daughters include the \$30,000 Revival 4076 at Young Ranch; the \$21,000 Blackcap May 4077 at Parker Cattle Co.; the \$20,000 Blackcap May 1097 at Lighthouse Angus; the \$17,000 Blackcap May 2228 at Oldroyd Angus; and Keynote 2227, a sire in the Thomson Land and Livestock program.

Foundation *Dam*

With a story and production that seems to grow with each passing day, the now-deceased Donna 505 is regarded as one of Donna 714's most popular and prolific daughters. Selling for \$50,000 at the age of 10 years after compiling more than \$650,000 in live progeny sales, 505 enjoyed yet another run of success for the partnership of Bucksnot and Faith as a flush from her sold for \$25,000 in their 2025 joint production sale.

While Donna 505 was renowned for her iconic combination of power and femininity, her production was even more impressive with daughters including Donna 1220, the \$20,000 top-selling open heifer of the 2022 Montana female sale; Donna 1216, a Pathfinder® Dam; Donna 8074, a second-generation donor in the program and maternal grandam of the \$29,000 Method 4255; and sons: the \$20,000 Klondike 2212; the \$20,000 Kelly 2036; the \$19,000 Kilmer 2037; and the \$17,000 Stellar 2038.

A rare find! Seldom does one find a proven Pathfinder® Dam with as much story and look as Donna 1216. Long-spined and wedge-shaped with classic femininity, 1216 transmits that same great look as evidenced by her three daughters retained in the herd. Produced from the combination of the renowned maternal Pathfinder® Sire, Density, with the powerful Donna 505, Lot 13 maintains a calving interval of 373 days and a progeny record of WW 3-109 and YW 3-102.

Produced 16 viable embryos from one aspiration.

Sells with a 7/14/26 heifer calf (Tattoo 6374 - AAA 21641150 - Lot 13A) sired by Koupals B&B Signal 1159.

Generationally maternal and classically good in her kind, Donna 2033 blends the power of her dam with the productivity of her Pathfinder® Sire. EXT 6106 gained a cult following in the early 2000's with commercial ranchers for his easy-doing, fertile and productive daughters. By the time, the purebred world discovered him, widespread appeal was limited due to semen scarcity. Her daughter, Donna 4311, was a selection of Garman Cattle Co. in Oklahoma from a past sale.

Sells with a 7/28/26 bull calf (Tattoo 6350 - AAA 21643529 - Lot 15A) sired by Montana Jet 1271.

What a combination of cows! Sired by Glacier 9123, the full brother to the \$220,000 Rita 9093, this deep-sided, robustly-shaped female is a third-generation donor in the program.

Her son, Method 4255, has seen use in the program and was the \$29,000 third high-seller of the 2025 bull sale selected by Little Goose Ranch of WY. Carrying a progeny record of WR 2-112 and YR 2-110 with a calving interval of 367 days, Donna 1287 was produced from the famous one-eyed Donna 8074 who balances BR 5-96 with WR 5-101.

Produced 28 viable embryos from two aspirations for an average of 14 embryos.

Sells with a 6/24/26 bull calf (Tattoo 6269 - AAA 21638543 - Lot 16A) sired by Montana Milestone 4035.

MONTANA METHOD 4255 • The \$29,000 son of Lot 16

MONTANA DONNA 8074 • Dam of Lot 16

MONTANA RITA 9093 • Full sister to the sire of Lot 16

Bred for Balance

The Montana Ranch program is centered on the Angus cow and her ability to **REPRODUCE** regularly, efficiently **RAISE** her calf, and to **LAST** a long time with a minimum of intervention or assistance.

Unfortunately, much of the seedstock industry, in most all breeds, have forsaken essential maternal function and structural soundness in the pursuit for extreme growth and terminal traits. This pursuit comes at a steep cost, and the very cow-calf producers who rely on seedstock producers to keep them profitable are left holding the receipts.

What is the role of a seedstock provider? At Montana Ranch, our role is to increase ranch-level profitability to our customers by providing consistent, predictable and problem-free genetics with the right **BALANCE** of **PERFORMANCE**, **MATERNAL EFFICIENCY**, **MATERNAL FUNCTION**, **STRUCTURAL SOUNDNESS**, **FERTILITY** and **PRODUCTIVITY**.

different **BY DESIGN**

Creating cattle which are consistent and predictable with the right **BALANCE** is not complicated. Contrary to much of the seedstock industry where planning the next generation is done while poring over spreadsheets full of EPDs, genomic scores and theory-based mating, our breeding philosophy is exceedingly straightforward. We're certainly not anti-science nor anti-data. In fact, we are **PERFORMANCE** driven, yet we place the most emphasis on maternal inheritance from cows which are **PROVEN**, **PREPOTENT** and **PRODUCTIVE** based on their actual production. With each new generation we strategically weave complementary dams into pedigrees which have demonstrated the ability to pass on the desirable traits time and time again with a high degree of consistency and predictability.

COLEMAN DONNA 206

MONTANA DONNA 3289 • The \$90,000-valued daughter of Donna 206

MONTANA DONNA 1206 • A \$27,000 daughter of Donna 206

Foundation *Damn*

The recently-deceased and royally-bred Donna 206 is a true breed treasure with a functional, efficient type highlighted by ideal breed character, and is sired by Rito 707, the breed's common denominator for modern maternal and performance genetics. A direct daughter of the influential Donna 714, 206 carries a production record of BW 8-98; WW 8-103 and YW 7-100 with progeny sales of \$320,000.

Her progeny include Donna 3289, the \$45,000 half-interest selection of Faith Angus Farm from the '24 female sale; the \$30,000 Kosar 2021 at Chundy Angus; the \$27,000 Donna 1206 at Oldroyd Angus; and Donna 1207 at Brooking Angus Ranch.

Daughters sell as Lots 17A-D.

With tremendous depth and capacity, coupled with ideal breed character and fleshing ability, Donna 4055 combines two of the most influential cows in the program – Blackbird Progress 3015 and Donna 4356. The daughters of Pathfinder are some of the most productive in the business with 313 head weaning 540 calves for an average nurse ratio of 101.

Sells with an 8/8/26 heifer calf (Tattoo 6324 - AAA 21649938 - Lot 19A) sired by Spring Cove Grant 200K.

Well on his way to joining the industry's most impactful maternal sires, Atlantis stems from a pedigree combining two of the breed's most proven and prepotent dams – Blackcap May 4136 whose sons include the Pathfinder® Sires: Resource, Renown, Recharge, Rainfall, President and Raindance, and Elbanna 1209, the dam of the widely used sire Confidence Plus, Atlantis, True North and Constable.

Excelling for traits of real-world, ranch-level profitability, the Atlantis daughters are renowned for their udder quality, fleshing ability, fertility and productivity with 557 daughters weaning 912 progeny with an average NR of 101.

Sixty-nine sons of Atlantis have sold for \$998,000 at Montana Ranch for an average of \$14,463, including the \$180,000 Judgement 1038; the \$40,000 Kingdom 2294; the \$40,000 Jake 1036; the \$35,000 Killebrew; \$32,500 Lifeline 3028. Thirty-three daughters of Atlantis have sold for \$747,500 at Montana Ranch for an average of \$22,651 including the \$90,000-half interest Rita 4083; the \$75,000 Joanie 4037; the \$57,500 Joanie 3029; the \$52,000 Donna 3013 and the \$48,000 Black Ceyla 2026.

With stunning femininity and an ideal udder, this daughter from the mating of the Pathfinder® Sire, Atlantis, to the Pathfinder® Dam, Donna 3202, has a true Bonsma type and is a herd favorite. Calved late as a first-calf dam, Donna 2325 has been moved up an average of 30 days over the past two years and carries a calving interval of 335 days to go with a nursing ratio of 112. Her daughter, Donna 4369, was a \$13,000 selection of Parker Cattle Co. in the 2025 sale, while her productive dam shows a progeny record of BW 8-92, WW 7-101 and YW 5-105.

Produced 5 viable embryos from three aspirations for an average of 1.6 embryos.

Sells with a 6/21/26 bull calf (Tattoo 6265 - AAA 21638521-Lot 20A) sired by LT Converse 8011.

COLEMAN DONNA 3202 • The Pathfinder® Dam of Lot 20

MONTANA DONNA 4369 • A \$13,000 daughter of Lot 20

MONTANA DONNA 4039 • A \$47,500 maternal sister to Lot 20

MADAME PRIDE 9838 | POWER AND PRODUCTION

SAV MADAME PRIDE 9838 • Dam of Lots 21A-C and 22A-B

MONTANA JENNINGS 1001 • The herdsire son of Madame Pride 9838

MONTANA KINCAID 2108 • A \$16,000 son of Madame Pride 9838

Foundation *Damn*

The \$35,000 half interest selection of Oldroyd Angus in the '23 Montana sale, Madame Pride 9838 is a deep-ribbed, wedge-shaped and ultra-feminine daughter of Madame Pride 3145, the Pathfinder® Dam and current top income producing dam at SAV.

Progeny from Madame Pride 9838 earn ratios of WR 3-102; YR 3-102; IMF 19-102 and RE 19-100, while her progeny earnings eclipse \$200,000 and include Jennings 1001, the Lot 1 lead-off bull of the '22 bull sale. Maternal siblings to Madame Pride 9838 include the \$210,000 Madame Pride 5127; the \$210,000 Madame Pride 1560; the \$225,000 Anthem 0042; the \$200,000 Circuit Breaker 7136; the \$150,000 American Flag 0223; the \$140,000 Riptide 1835 and the \$82,500 Glory Days 1832.

Owned with 3rd Degree Angus. Selling full interest.

Impeccable in her structure with a flawless udder and loaded with look, Erica 9074 shows a progeny record of WW 4-100 and is the only full sister to Outcross 9077, the top-seller of the 2020 bull sale. Sired by the sensational maternal sire, Density, she was produced by a right-sized and easy-fleshing daughter of Zorzal, the dominant sire in South America, sourced from the famed Tres Marias program in Argentina.

Produced 107 viable embryos from 14 aspirations for an average of 7.6 embryos.

Sells with a 6/22/26 bull calf (Tattoo 6368 - AAA 21638537 - Lot 25A) sired by Montana Method 4255.

MONTANA JUDGEMENT 1038

MILL BRAE FP JOANIE 3063 • The Pathfinder® Dam of Judgement

"Montana Judgement 1038 has been one of our favorite sires over the past few years and as we see his daughters in production it's looking as though he's going to remain one of our favorites for years to come. .The udders on our first calf heifers are PERFECT!"

"He's now the first bull to have sired the Champion Pen of Three Heifers at the Canadian Western Stock Show for two consecutive years"

- Brandl Cattle Company, Alberta, Canada

A go-to sire for those searching for increased muscle, depth and rib-shape, improved structural soundness with optimal levels of performance while simultaneously selecting for reduced mature size, Judgement was the \$180,000 top-seller of the 2022 Montana sale.

A high-customer satisfaction sire, the powerful Judgement 1038 is the \$180,000 top-seller in the history of the program and is from one of the breed's most valuable matings. His progeny do not disappoint as evidenced by his sons: the \$70,000 Milestone 4035 in the Duff Program; the \$29,000 Method 4255 at Little Goose Ranch; and sons selling for an average of more than \$29,000 at 3R Premium Genetics in Australia. His daughters include the \$85,000 Blackbird Progress 4034 at ZWT; the \$90,000-valued Donna 3289 at Faith Angus and daughters capturing the Champion Pen of Heifers for two consecutive years at the National Western Stock Show.

With proven, prolific and productive dams occupying the first seven dam slots of his pedigree, Judgement was produced from the same Pathfinder® Dam as Benchmark 9016; the \$70,000 Joanie 1037; the \$57,500 Joanie 3029; the \$40,000 Jake 1036 and the \$35,000 Killebrew 2049. Her progeny earn a record of WW 7-103; YW 7-106 and RE 37-103.

Owned with Angell Cattle Company; Lonker Cattle Company; Vision Angus

Combining two of the breed's most prolific and prepotent dams, Milestone 4035 blends powerful construction with proven productivity and outstanding performance. This docile, big-hipped and wide-based powerhouse is great-footed and carries impressive presence with added depth of body.

Joining the Duff Cattle Company sire lineup as an exciting outcross for their Power Plus program, Milestone was the \$70,000 top-seller of the 2025 Montana bull sale. His 5th generation Pathfinder® Dam carries a progeny record of WW 8-107, YW 7-107, IMF 61-99 and RE 61-101, and has more sons working in purebred herds and AI companies than any other cow in Angus history. Prior to her most recent son, Koupals B&B Inevitable 509, selling for \$800,000, twenty-four sons of Blackbird Progress 3015 sold for an average of nearly \$27,000, while six daughters offered at auction sold for an average of more than \$34,500, headlined by the \$85,000 Montana Blackbird Progress 4034, a full sister to Milestone.

Owned with 3rd Degree Angus. Selling full interest.

If we could design the ideal type and kind, it would look a lot like Erica 4105. She is complete in her kind from every angle with a picture-perfect udder. Stout from end to end with ample depth and rib shape, coupled with impressive femininity and brilliant breed character, Erica 4105 is from the mating of the \$180,000 Judgement to the authentic Argentinian outcross-bred daughter of Zorzal.

Sells with a 6/6/26 heifer calf (Tattoo 6202 - AAA 21638482 - Lot 26A) sired by LT Chosen 2132.

Selling 3 IVF embryos with a guarantee of 1 pregnancy.

This mating features a pedigree blending two of the breed's great dams - the Pathfinder® Dam Blackbird Progress 3015 and the prolific Donna 438. Sired by the \$800,000 Inevitable 509, Lot 27 was produced from the highly-productive Donna 438, a long-bodied, exquisitely feminine and ideal-uddered full sister of Coleman Playmaker 427 at Genex and Donna 439, the \$350,000 valued dam of Glacier 041, the \$270,000 top-seller of the '22 Coleman bull sale.

With a progeny record of BR 7-98; WR 7-108; YR 4-107 and RE 42-103, Donna 438 produced the \$52,000 Montana Donna 3013; the \$21,000 featured sire in the program, Leverage 3009; the \$20,000 Koufax 2029; \$17,000 Laramie 3012 and the \$16,000 Junction 1017; along with ten daughters working in the Montana program with 25 calves posting an avg WR of 103, including the Pathfinder® Dam, Donna 9201.

SACKMANN RUBY 7523 • The Pathfinder® Dam of Lot 29

MONTANA NEWSOME 5071 • This full brother to Lot 29 is a highlight of the Montana bull sale

Cow power defined, Ruby 5069 is from one of the deepest, high-quality matings born at the ranch in 2025. Broody, big-bodied and exquisitely feminine, she was produced from the Pathfinder® Dam, Ruby 7523, who joined the program in as our choice from the Sackmann Cattle Co herd and later sold for \$21,000 to Dampier Angus of MO as a 9-year-old donor in the 2025 Montana female sale. Deep-sided, perfect-footed and ultra-feminine through her front third with stunning presence, 7523 combines an outcross pedigree with outstanding production. Her progeny earn WR 6-104; WR 5-108; IMF 5-107 and RE 5-108.

Due to calve 2/13/27 to LT Reversed.

Backed by some of the best cows in the business, Jet 1271 was the \$39,000 added-lot sire in the 2023 Montana female sale and excels for traits of ranch-level profitability.

Produced by Joy 9330, the productive maternal sister to the popular Pathfinder® Sire, Rainmaker 4404, Jet is a bullet-proof calving ease sire with stoutness and improved disposition and hoof structure.

His progeny record ratios of WW 148-102, including nine sons which sold for an average of \$14,500 in the 2025 Montana Ranch bull sale, while his daughters indicate a marked improvement for udder quality over their dams.

Owned with Eaglehawk Angus; Faith Angus Farms; Nelson Angus

One of the most unique sires ever produced in the Coleman Angus program, Avalanche is destined to be a major force and was the \$250,000 half-interest top-seller of the 2025 Coleman Female Sale.

Sound from the ground up with unmatched presence and powerful muscle expression, added length of spine and impressive depth of body, Avalanche excels for ranch-level profit-traits and posted tremendous individual performance, posting adj. WW of 942 lbs. and adj. YW of 1500 lbs.

With great cows in all directions, Avalanche stems from two consecutive generations of Pathfinder® Dams and is line-bred to Donna 714, the breed's most prolific and proven source of maternal genetics.

Avalanche's Pathfinder® dam, the \$370,000-valued Lot 1 of the 2024 Coleman sale, earns a progeny record of BR 3-89; WR 3-109 and YR 2-106 which includes Below Zero 2106, the \$300,000-valued member of the Genex lineup. His sire, Glacier 041, became the all-time record-seller of the Coleman program when he sold one-quarter interest for \$270,000 and is the breed's Number One \$Maternal proven sire with daughters in production.

SADLER DONNA 5009 • \$57,500 daughter of Grant 200K

Selling 10 units of sexed female semen:

- Lot 31A - 2 units
- Lot 31B - 2 units
- Lot 31C - 2 units
- Lot 31D - 2 units
- Lot 31E - 2 units

As the nation rebuilds the cowherd from historic low inventory, the industry will shift its emphasis to cattle which have the right kind of growth curve – accelerated early growth with moderated mature size, cattle that have real muscle and fleshing ability, and cattle that are sound from the ground up and cattle that excel for maternal productivity and efficiency. Grant 200K will be among the sires used to produce those kinds of cattle.

Grant's first progeny have been sought after in the marketplace with sons topping the sale at the record-breaking Lindskov LT Ranch and other sons topping sales for both Spring Cove Ranch and Parry Angus.

Grant's dam posted a progeny record of WW 3-110; YW 3-106 and IMF 4-115 before her untimely death, while his grandam earned WW 3-106 and YW 4-103, and his third dam, the famous Pathfinder® Carol 418, shows WW 6-106 and YW 3-104.

Used and proven by widely diverse programs all over the globe, Grant is a rarity in today's age in that his EPD profile has held steady as more progeny are submitted. His 184 calves born to first calf heifers have all arrived unassisted, while his progeny are showing BR 551-100, WR 300-101 and YR 149-102.

Selected by Roberts Angus of ND as a \$57,500 feature of the 2024 female sale, Joanie 3029 is from the most valuable mating ever in the Montana program. Produced from the Pathfinder® Dam, Joanie 3063, who sold at age nine years to ZWT Ranch for \$75,000 and showing a progeny record of WW 7-103; YW 7-106 and RE 37-103, this young dam earned a progeny WR of 114 on her first calf.

Eleven full siblings to Joanie 3029 have sold for an average of \$47,750 including the \$180,000 Judgement 1038; the \$75,000 Joanie 4037; the \$70,000 Joanie 1037; the \$40,000 Jake 1036 and the \$35,000 Killebrew 2049.

Emblynette 2100 was selected by Front Range Cattle as the \$44,000 second high-selling bred heifer of the 2023 Montana Ranch female sale and has since become an overwhelming visitor favorite for her power, center mass, impeccable breed character and ideal udder structure. Her first daughter, Emblynette 4100, went to Roberts Angus for \$77,500 in the 2025 Montana sale posted ratios of BW 95; WW 100; YW 100; IMF 124 and RE 118.

Her dam, Emblynette 8255, was a \$140,000 featured donor in the 2025 Montana sale selling to Voss Angus and ZWT Ranch and is from the same mating that produced the \$230,000 SAV Territory 7225.

From one of the most anticipated matings in the program, this package combines the impressive \$147,500 Flint with a new-generation Donna headliner.

Right-sized and big-bodied with a picture-perfect udder, impeccable hoof structure and flawless breed character, Donna 3289 is a visitor favorite and is universally acclaimed as the ideal Angus cow.

In the 2024 Montana female sale, Donna 3289 was selected by Faith Angus Farms as the \$45,000 half-interest top-selling summer yearling heifer. Her famous dam, the recently-deceased and royally-bred Donna 206, is a true breed treasure with a functional, efficient type highlighted by ideal breed character, and is sired by Rito 707, the breed's common denominator for modern maternal and performance genetics. A direct daughter of the influential Donna 714, 206 carries a production record of BW 8-98; WW 8-103 and YW 7-100 with progeny sales of \$320,000.

A dynamite mating blending the sensational new member of the Select Sires lineup, Flint 4005, with one of Judgement’s top young daughters.

She’s been described as old school cool. We simply call her awesome. Right-sized and loaded with shape from end to end, Donna 4003 is an absolute specimen. From her udder, to her structure and her breed character, 4003 could serve as a blueprint for what the model Angus cow should look. Her dam, who passed at age 15, blended the Pathfinder® Sire, EXT 6106, with Donna 386 and carried a progeny record of WW 6-106 and YW 4-108.

Selling 3 IVF embryos with a guarantee of 1 pregnancy.

An exciting mating combining three of the program's foundation donors – Donna 7233, Joanie 3063 and Blackbird Progress 3015.

When we talk about cows being prepotent and clicking with every mating, Donna 7233 immediately comes to mind. With numerous daughters joining her in the Montana donor program and a long list of sons working in purebred herds, 7233 is among the breed's most proven sources of maternal genetics. With one-half interest in 7233 selling privately this summer to our good friends at Rafter B Ranch, this matriarch shows a production record of BW 6-100 and WW 6-101, 7233's progeny include Donna 9431, a \$25,000 selection of Grand River from the '24 sale; the \$20,000 Lombardi 3051; Donna 1084 at Oldroyd Angus and sons working in purebred herds - Justice 1109 at Mystic Hill Farm; Kennebec 2220 at Cambray Livestock; Jingo 1085 at U2 Quality Genetics and Rhodes Red Angus and Jetway 1087 at Larsen Angus.

During our 2025 trip to Australia for the World Angus Forum and Angus Expo, we stumbled onto a young bull that checked all of our boxes. A bull chock full of natural muscle and depth, with unquestionable sound structure and good feet, suited to work in forage only environments, from a great, prepotent dam, and backed by a program that shares our vision of making the right kind for the right reasons – check! That young bull was 3RLS Horizon V046, bred and raised by our friends and partners at 3R Livestock.

In June 2026, the first semen from Horizon V046 landed in the U.S. with an allotment for Montana Ranch’s use and an allotment to be marketed by Montana Ranch. Horizon will see significant use in the Montana program.

Excelling for traits of real-world, ranch-level importance, his dam - Donna 9309 - blends an ideal-Angus type with a progeny record ranking her among the breed’s elite cows. From a dam who shows a progeny record of BW 4-91; WW 4-105 and YW 4-106, 9309 is a full sister to the breed-leading calving-ease sire, Night Watch 9259, and a maternal sister to the \$150,000-valued Banker 9215 and the \$90,000-valued Donna 9220.

Progeny from Donna 9309 include the \$70,000 Donna 5015; the \$62,000 Duff Harmony 3180; the \$60,000 Sadler Donna 5009; the \$57,500 Sadler Donna 5002; the \$29,000 Sadler Bitcoin; the \$24,000 Duff Decked Out 4056; and the \$24,000 Sadler Donna 5018.

MONTANA MERIT 4253 • Reference Sire K

From the day he was born, Merit 4253 was a standout of his calf crop. Wide-pinned and heavy-muscled with unmatched presence and a pedigree stacking three generations of great cows on his mother's side combined with a sire side featuring Forever Lady 7038 and Blackbird Progress 3015, there was little doubt of his breeding potential.

After weaning with a ratio of 106 at 55% of his dam's weight, posting ratios of YW 107, IMF 112 and RE 104, Merit 4253 went on to be the \$30,000 2nd high-selling bull of the 2025 Montana bull sale.

MONTANA METHOD 4255 • Reference Sire L

No other bull of his calf crop had as many friends of Method 4255. Stout, wide-based and packed full of muscle, Method 4255 was produced from one of the herd's hardest working cows and has great cows occupying every corner of his pedigree. The 3rd high-selling bull of the 2025 Montana bull sale, Merit has been used back in the program, both on heifers and cows.

Weaning at 56% of his dam's weight with a ratio of 107, Method also posted a YW ratio of 107 and a RE ratio of 111 with his calf crop's largest measured SC.

Owned with Little Goose Ranch

Benchmark 9016 has earned his stripes as a proven sire of beautifully-feminine and productive daughters along with powerful high-growth sons. Blends two of the breed's elite herd sire producing dams – Elbanna 1209 (Confidence Plus, Atlantis 8060, True North 9052 and Constable T34) and the Pathfinder® Joanie 3063 (Judgement 1038, Jake 1036, Killebrew 2049 and Benchmark). Recording progeny ratios of WW 712-102 and YW 454-103 with 254 daughters weaning 366 calves with a NR of 103, Benchmark is an udder-improving sire ranking in the top 3% for Teat in addition to ranking in the top 4% for Milk and the top 15% for Udder. Benchmark is universally accepted with daughters such as the \$20,000 Montana Blackcap May 1097; the \$20,000 Montana Donna 1335 and the \$17,000 Montana Donna 3016, along with sons including the \$45,000 SAV Bench Press 1363; the \$19,000 Montana Jennings 1001; the \$19,000 Montana Knockout 2345 and the \$18,000 Montana Benchmark 3005.

Moderate-framed and easy-fleshing with impeccable udder structure, Abigale 1319 blends the Pathfinder® Sire, Renown, with the dynamic full sister to the maternal and muscle sire, Charlo 0256. One daughter of 1319 is working in the Montana program, while a son is a herd sire in the Hillover Livestock herd in Maine.

Sells with a 8/6/26 bull calf (Tattoo 6359 - AAA 21649934 - Lot 52A) sired by LT Falcon 3011.

Descending from a 2nd dam who is a maternal sister to the Pathfinder® Sire, Charlo 0256, one of the breed's elite sires for the combination of muscle and maternal, Abigale 1310 is a model Angus cow with an impressive wedge-shape and exquisite femininity. With one son at Lawrence Ranch in SD, Lot 53 has a daughter working in the Montana program.

Sells with a 9/8/26 heifer calf (Tattoo 6365 - AAA Pending - Lot 53A) sired by Brooking Revival 0074.

ANGUS UNDERGROUND

PODCAST

The Angus Underground Podcast was born in 2021 to inspire independent thought among seedstock breeders, both young and seasoned, while encouraging the next generation to find their place and build a future in agriculture. Our reverence for the Angus cow, the experiences we've gained and the network we've built over a lifetime in the seedstock business guide us through the wide range of topics we cover every two weeks in our long-form episodes.

After five years, 122 episodes and more than 1 million downloads, we sincerely thank our loyal listeners who have included us in their Angus journey.

A favorite of the summer 2025 calf crop, this daughter of Grant is deep-sided, attractive in her pattern and exquisitely feminine. Her dam carries a progeny record of WW 1-117 and YW 1-115, while descending from Patricia 9705, the proven and prepotent dam of the Pathfinder® Sire, KCF Bennett Fortress; the \$235,000 KCF Bennett Citation; and the \$67,500 KCF Bennett Summation.
